www.linkedin.com/in/lisi-gonzalez/

I am a Full Stack Developer with a curious mindset and a passion for constant learning. I enjoy working as part of a team, collaborating with others to achieve common goals. I value diverse opinions and believe that listening to others enriches my work. Additionally, I have knowledge in agile methodologies, GIT, data structures, algorithms, and CSS frameworks. I have experience in Front End and Back End development using React, Node, Express, Sequelize, Tailwind, CSS, HTML5, and Firebase. My approach is based on empathy, curiosity, dedication, and the ability to work as a team. Furthermore, my English level is advanced (C1). I use my experience and judgment to make decisions and achieve effective results in my projects.

PROJECTS

Full Stack Web Developer - Fusionajob   feb. 23 - abr. 23
Academic Experience
Henry Bootcamp,Córdoba, Argentina.

Design and develop a job search web platform that serves as a link between companies and workers, including authentication, searches, combined filters, sorting, user banning, email sending, payment gateway, free and premium applicant user plans. My major contribution to this project was the layout and implementation of the free and premium applicant user flow.
Front: Redux Toolkit, Tailwind
Back: React, Express, Firebase, Cloudinary.
Database: PostgreSQL and Sequelize.
